IMDB: [tinyurl.com/imdbhenrym](https://www.imdb.com/name/nm1045444/)

- With over 20 years of experience, I trained in London, England at a facilities house then worked for the BBC on documentaries.
- I have worked across the globe, often filming in extreme environments, requiring skiing, sailing, mountaineering, rock climbing and repelling, off grid living, off road driving in all conditions including jungle, Arctic and desert.
- I am equally comfortable in my career's natural progression to drama, films and television productions. The spontaneity of unscripted projects has given me a good grounding in efficiently handling many types of people as well as unusual situations and environments.
- I hold a UK passport as well as a US Green Card, I am able to work in many parts of the world. I equally enjoy travelling worldwide to work on projects as well as working in a studio setting.
