Hello,

My name is John Aaron Putnam and I am a feature editor.

To give you a brief overview of my skill set - I have been working in the Film and Video industry for 20 years, having participated in the production of a large range of projects, including feature film post production, corporate instructional and commercial documentary. I have worked with major distributors and production companies such as Tubi, BET+, MarVista Entertainment, Discovery channel and Magilla TV. Though my main skill is editing, I have experience in media management, sound design, mixing/mastering, VFX and color correction. I have collaborated with directors, producers, marketing teams, sound engineers, music composers and visual effects artists to compile high quality audio visual products.

Most recently I have co-founded a commercial video production group, aimed at providing growth for our client's companies through telling stories with emotional depth. I am a 2009 graduate of Western Carolina University with a BFA in Digital Motion Picture and Television Production.

Thank you for your consideration.
J. Aaron Putnam
